Arbor Bluff Health Laboratory

Laboratory Report

Patient: Raymond C. Ostrander

Date of birth: 05/30/1953

Collected: March 17, 2026, 7:42 a.m., fasting

Ordered by: Sunita Raghavan, MD, Arbor Bluff Clinic West

Test	Result	Reference range
Hemoglobin A1c	7.1 % (high)	under 5.7 %
Glucose, fasting	132 mg/dL (high)	70 to 99 mg/dL
Total cholesterol	138 mg/dL	under 200 mg/dL
LDL cholesterol, calculated	68 mg/dL	under 100 mg/dL
HDL cholesterol	44 mg/dL	over 40 mg/dL
Triglycerides	131 mg/dL	under 150 mg/dL
Creatinine	1.04 mg/dL	0.70 to 1.30 mg/dL
Estimated GFR	71	over 60
Potassium	4.4 mmol/L	3.5 to 5.1 mmol/L
ALT	28 U/L	7 to 55 U/L
Vitamin B12	412 pg/mL	232 to 1,245 pg/mL
PSA, total	3.1 ng/mL	under 4.0 ng/mL
Urine albumin to creatinine ratio	14 mg/g	under 30 mg/g

Comments from the ordering physician

A1c is a little above the last result but within the goal we set for you (under 7.5 %). LDL is at the cardiology target of under 70 for the first time. Kidney function and urine protein are normal. Vitamin B12 is checked because of the metformin and is normal. No change to medications. Repeat the A1c in September.
